LOGOPRESS 3

SOLIDWORKS
Certified Gold Product

3 different Gold Certified products including 123GO, our FREE Gold Certified product!

1-2-3 GO — FREE
by logopress3

Simply put, **123GO** simultaneously adds holes and fasteners to your assemblies **many** times faster than you can add the holes alone when using any other method.

LOGOPRESS 3 BLANK
Free 14 Day Trial

Logopress3 BLANK

- Finite Element Analysis (FEA) software
- Flattens complex shaped parts
- Very fast and easy
- No formal training
- Uses solids or surfaces
- Automatic meshing
- Forming constraints
- Thinning and thickening
- Shows stress and strain
- Controlled animation

Custom sewn cases

Foam gasket for ski goggles
Flattens all types of parts and materials

- Metal stampings
- Orthopedic braces
- Foam (gaskets)
- Decals (labels)
- Cloth (furniture)
- Plastic (optics)
- Nylon (bags)

LOGOPRESS 3

**Die design software does not have to be complicated or expensive to be powerful.**

Die Design Software

- For all kinds of parts
- Advanced flattening functionality
- Many specific Tool and Die functions
- Intelligent Standard Component Library
- Strip layout including Round Draw Module
- Dynamic Interference Detection & Animation
- 22 years 100% dedicated to die design software
Ask for a demo to see why so many companies have **switched** from other 3D Die Design software to Logopress3.
