- 6:00 – 7:00 Presentation on **“SolidWorks Simulation Tips, Tricks and Best Practices”**, by Tim Spielman from Alignex
- 7:00 – 7:15 Serve refreshments
- 7:15 – 8:00 Presentation on **“SolidWorks PDM”**, by Jeff Setzer from GSC
- 8:00 – 8:30 Networking

“SolidWorks Simulation Tips, Tricks and Best Practices”

Learn the basics of setting up a design validation study using SOLIDWORKS Simulation. Topics include modeling best practices, material selection, choosing the correct mesh type, viewing and interpreting the results, plus reporting/sharing options.

“SolidWorks PDM”

SOLIDWORKS® Product Data Management (PDM) solutions help you get your design data under control and substantially improve the way your teams manage and collaborate on product development.
