

## Guide to Obtain Visualize Serial Number

With the release of SOLIDWORKS Visualize in 2016, SOLIDWORKS Professional and Premium subscription customers received a complimentary copy of Visualize Standard. In the 2017 Release of SOLIDWORKS, Visualize has been integrated with the SOLIDWORKS Installation Media. As a result of this integration in the SOLIDWORKS install, a new Serial Number is needed to install Visualize 2017.

If Visualize Standard, or an upgrade to Visualize Professional, was purchased separately, then nothing changes and we use the same Serial Number used in Visualize 2016. For those using the complimentary license included with SOLIDWORKS Professional or Premium subscription, extra steps are needed. This guide details the steps needed to obtain that Serial Number.

STEP 1: Browse to www.solidworks.com and select "login".

**STEP 2:** Select the Customer Portal which will bring you to the login screen.

**STEP 3:** Sign in with existing account information, or create a new account if necessary. If creating a new account, it will be necessary to supply your Serial Number to Register and obtain full access to the portal.

**STEP 4:** Once logged in, click on **My Products**.

**STEP 5:** If there is a SOLIDWORKS Professional or Premium listed with a "+" symbol next to it, click this to expand and see the SOLIDWORKS Visualize Standard Serial Number. This will be listed as "with SOLIDWORKS Visualize Standard". Copy or note the Serial Number and skip to **Step 11**. If you do not see a Serial Number with the "+" next to it, select "Home" to go back to the main portal page.

>		with SOLIDWORKS Visualize Standard 2017				

**STEP 12:** We can now use this Serial Number to install SOLIDWORKS Visualize 2017.

**STEP 13:** If SOLIDWORKS 2017 is already installed, we can modify the installation to add SOLIDWORKS Visualize. See the <u>Alignex Guide to Modify an Install</u> for how to complete this process.
